- **A CAMPUS THAT FEELS LIKE HOME** with the right people in place to support you
- **COURSES THAT EXPAND YOUR CREATIVITY** and prepare you for your future career
- **FUN AND MEANINGFUL OPPORTUNITIES** to pursue your interests and become a leader
- **OPEN-MINDED CLASSMATES AND PROFESSORS** who support your unique perspective

PROUDLY SPONSORED BY THE SCHOOL SISTERS OF NOTRE DAME

Mount Mary students and alumnae are change makers and barrier breakers because of our founding School Sisters of Notre Dame (SSND) and their pioneering spirit. The SSND are still at the forefront of causes they care deeply about: climate change, clean water access, equitable education, and much more. They continue to infuse Mount Mary with strong values and an unquenchable spirit.

Why study internationally at Mount Mary?

- At Mount Mary, you'll join a diverse learning community, both domestically and internationally. 55% of Mount Mary students have diverse racial and ethnic backgrounds, which creates a dynamic community of unique religious, political, socioeconomic and cultural viewpoints.
- We are proud to provide a home away from home for a variety of international students from countries such as Trinidad, Kenya, Vietnam, China, Nepal and Nigeria, among others.

- Our International Club welcomes students from abroad and nearby to promote an understanding of languages and various cultures of the world. Activities include enrichment trips, social gatherings, cultural country presentations, and orientation for new international students.

MORE ABOUT THE INTERNATIONAL ADMISSIONS PROCESS

We know that you may have many questions as you explore the option of studying internationally. Please take a few minutes to visit mtmary.edu/international to learn more about Mount Mary and the international student enrollment process.

MUCH TO LOVE ABOUT MILWAUKEE

Opportunity and fun await you in Milwaukee, Wisconsin. Mount Mary's campus is just 20 minutes away from Milwaukee Mitchell International Airport.

Some of our favorite Milwaukee activities include:

- Exploring the beautiful beaches of Lake Michigan
- Enjoying the world's largest music festival – Summerfest – and 12 other cultural festivals throughout the year
- Taking in historic and edgy artwork at the Milwaukee Art Museum
- Immersing yourself in our vibrant performing arts scene (ballet, theater, opera & more)
- Cheering on Wisconsin's professional sports teams – including the Milwaukee Bucks, 2021 national basketball champions!

Our vibrant city also offers countless internship opportunities!

THE WORLD NEEDS

your voice

If you're not exactly sure what to expect from an all-women's university, you're not alone. Many of our students are apprehensive at first, but soon discover the uniquely supportive and empowering environment that's only possible at an all-women's school.

At Mount Mary, your professors and classmates will lift you up and celebrate your ambitions. You'll be able to develop your ideas, identity and confidence in an inclusive environment.

Taylor ROBINSON '23

→PSYCHOLOGY*

Taylor enjoyed the learning environment at her all-girls high school, and wanted to continue that experience in college. She works in the university's marketing department and has a passion for photography.

SPECIAL ENVIRONMENT.

There's something so special and empowering about being around all ladies. They help hype me up and bring such thoughtfulness to our classes.

INCLUSIVE DISCUSSIONS.

My classmates come from so many unique backgrounds. I've found that even if people seem really different from you, there are usually at least one or two things you have in common. Our professors really encourage us to be open-minded.

OWN YOUR WORTH.

To me, knowing your worth is more than just having confidence. When you know your worth, you won't let anyone else alter your thoughts and decisions, unless their perspective will benefit your growth. My professors and peers constantly remind me how smart and talented I am, and now I believe it for myself.

** As a first-year student, Taylor participated in the Compass Year Program and chose the right major for her!*

GET READY to grow

Many universities claim to offer highly personal academic attention, but here at Mount Mary, we truly mean it.

You'll build close relationships with your professors and they'll connect you with internships and professional opportunities that match your goals.

No matter what you choose to study, you'll find yourself academically challenged and encouraged.

Kara SPEAKMAN '23

→BIOLOGY-HEALTH SCIENCES

As a Jewel Scholar, Kara has spent the past year studying hemoglobin in gutless beard worms. She plans to attend medical school after earning her bachelor's degree.

UP NEXT: MED SCHOOL.

When I was younger I had some health issues, so I became well versed in the world of hospitals. This experience and my desire to help others made me want to go into medicine. My goal is to work in ophthalmology or neurology.

OUR CLASSES STAND OUT.

Mount Mary has such a personable classroom environment, which makes it easy to speak up and ask questions. My teachers feel more like my equals and less like my superiors. We learn from one another. This dynamic is so comforting, especially in my science classes.

TOGETHER WE ACHIEVE.

I had to take a chemistry class entirely online because of the pandemic, which was tough. I turned to tutoring, which I highly recommend. It's included in the cost of tuition and has really helped me build a study routine. My professors have also been an incredible resource. They're always willing to help me out.

We're dedicated to making sure nothing stands in the way of you achieving your dreams. Mount Mary offers numerous scholarships and financial aid opportunities to help you afford your education.

100% of our incoming, full-time undergraduate students receive an academic scholarship or reduced tuition.

Giselle MARTIN GOMEZ '23

→ SPANISH AND ENGLISH—
WRITING FOR NEW MEDIA

Giselle is the editor-in-chief for Arches, Mount Mary's award-winning student magazine. She loves sharing her school pride as a bilingual student ambassador and tour guide.

I'VE FOUND MY PATH.

I originally wanted to be an immigration lawyer, but my writing skills really stood out to one of my professors so she encouraged me to pursue English. Here at Mount Mary, your teachers get to know you really well. I'm grateful that she connected me to a major that's been such a great fit for me.

THANK YOU, FINANCIAL AID!

Don't let the cost deter you from considering a private university. Mount Mary is truly committed to helping you afford college. I'm very grateful for the financial aid I've received.

WELL WORTH IT.

As a first-generation college student I've seen my parents work so hard for my sisters and me to have opportunities they didn't have. Attending Mount Mary is definitely worth the investment because of the doors it'll open for me.

REACH FOR YOUR dreams

At Mount Mary you can join more than 25 student-led clubs and organizations. We also offer six NCAA Division III athletic teams.

Our campus is ideally located in the northwest corner of Milwaukee. You can shop, dine and hang out at Mayfair Mall and in the Village of Wauwatosa, or get downtown in just 15 minutes. Plus, we're located right next to the Menomonee River Parkway, a great trail to walk safely, bike and run.

Jaqui REYES '22

BIOLOGY HEALTH SCIENCES

Jaqui stays busy as a member of Dance Association and Students Achieving Leadership through Spanish Activities (SALSA). In 2019 she founded BoldMKE – a new campus club focused on social justice issues.

GET INVOLVED & GET MOVING.

My freshman year I decided to try Dance Association out of the blue. That's what's so great about clubs here – you can just show up, have fun, and be yourself! They're so inclusive. It's been a great way to de-stress and get moving.

TAKING THE LEAD.

I decided to found BoldMKE to inspire faith in action on and around campus. Our goal is to help raise awareness about social justice issues in Milwaukee. We've focused on homelessness, racial discrimination and women's equality issues.

PERFECT LOCATION.

Mount Mary is in such a sweet spot between the city and the suburbs. So much is within arm's reach of campus, like the Brewers' stadium, downtown, and the Historic Third Ward. My friend and I love to treat ourselves to Shake Shack after a tough week!
