

COMMUNICATIONS

SCHOOL OF ARTS & SCIENCES

Concentration: Health Communication

Communication majors have the skills for today's rapidly changing workplace and are equipped for careers in any industry. Our graduates work in business, nonprofit organizations, health care and in governmental agencies. They become digital marketing coordinators, special event planners, patient advocates, community liaisons and more. Expand your opportunities. Discover what a communication major can do for you.

The health communication concentration explores how health and behavior are shaped by communication, information and technology. A health communication specialist helps to improve health communication and promote healthy behaviors through strategic communication initiatives.

What our graduates are saying

"Communication is a fundamental skill needed to succeed on a professional and personal level. Now as an instructor, I bring into my own classroom the experiences that I had at Mount Mary, and share the importance of effective communication, the need to appreciate diversity, and respect for others. My experience at Mount Mary enhanced my knowledge but more importantly helped me grow as a person."

– **Fabiola Estrada '16**
Instructor, MATC

"After graduation, I obtained a Marketing Specialist position and after a year became an Internal Communications Specialist. The communication major at Mount Mary provided me with a diverse education in the communication field, and I recommend it to students who are looking for a major that will help them succeed in a variety of careers."

– **Andrea Carskadon '16**
*Internal Communications Specialist,
Potawatomi Hotel & Casino*

UPDATED OCTOBER 2024

This example four-year plan is intended to outline the number and types of courses a student might take in order to fulfill the degree, major, core and elective requirements to graduate. Students meet with their academic advisor each semester to review progress toward fulfilling their degree requirements.
