

FASHION PARIS-FACULTY LED PROGRAM ~ J-TERM 2019

Meet Kaylee, a Merchandise Management grad (2021!) who participated in the faculty-led program to Paris. Kaylee is now a Patternmaker Assistant at Show Me Your Mumu.

“Not only does a study abroad trip look great on a resume, it is something you can talk about for the rest of your life. I love having the privilege to say I got to study in Paris. I have also been able to lean into more design roles because of the design courses we took in Paris - despite having a merchandising degree. It is a great option for merchandise students who also want to dip their toes into the design world.”

1

Why did you choose Paris?

-The Paris program turned out to be my favorite memory from college! It's an amazing life experience and a great way to learn about the fashion industry through hands-on experience. My favorite experience was being able to dress for Paris Fashion Week.

2

Housing:

-We staying in little apartments with one roommate-right across from campus! The view was amazing, and everything we needed was within walking distance (cafes, grocery stores, restaurants, etc.). I really enjoyed walking around; feeling like one of the locals. We even got to know some of the restaurant/cafe owners near us where we became regulars!

3

Piece of Advice:

-I would say do anything you can to go, even if that means taking out a loan like I did (LOL). But try to save up and apply to scholarships as well. It is truly one of the best things I did for myself! It is a super eye-opening experience and you will definitely make great memories and friendships.
